SCIENTIA REVIEW

**An Open Access Monthly
International E-Magazine**

**VOL. 1, ISSUE VI
DECEMBER, 2025**

<https://scientiafoundation.in>

Scientia Review is a multidisciplinary scientific e-magazine published by the Scientia Academic Advancement Foundation (SAAF). It provides a dynamic platform for researchers, academicians and professionals to share knowledge and innovations across diverse fields of science and technology. The magazine is dedicated to promoting quality academic writing, fostering scientific awareness and encouraging collaboration between established experts and emerging scholars.

CONTENTS

| Sl. | Title of the Article | Page |
|-----|---|-------|
| 1 | Gender Roles and Women Leadership in Northeast India Agricultural Economy <i>By Pallavi Deka</i> | 1-4 |
| 2 | Precision Farming in Agriculture and the Emerging Role of Artificial Intelligence and IoT <i>By Pranabesh Barman</i> | 5-7 |
| 3 | Indigenous Agricultural Knowledge Systems and Community Based Natural Resource Governance <i>By Himadri Rabha</i> | 8-11 |
| 4 | Integrating Nutrition and Metabolic Health Across Animal Systems <i>By Rupak Kr. Teye & Dipangka Saikia</i> | 12-15 |
| 5 | Will AI Replace Traditional Farming: Myths vs. Reality <i>By Chayanika Nath</i> | 16-18 |
| 6 | Economics in Agriculture in Assam and North East India <i>By Pallavi Deka & Pallabi Das</i> | 19-22 |
| 7 | The Role of Child Care Education in Strengthening Rural Family Well-being <i>By Pompy Bora</i> | 23-25 |
| 8 | Adopting an ICT Village in Rural Assam: Prospects, Opportunities and Challenges <i>By Pranabesh Barman & Biraj Kr. Neog</i> | 26-28 |
| 9 | Pollination Services How Beekeeping Supports Sustainable Farming <i>By Himadri Rabha</i> | 29-31 |
| 10 | Climate Change and the Future of Global Agriculture <i>By Chayanika Nath & Banasmita Barman</i> | 32-35 |
| 11 | Scientific Guidelines to Increase Milk Production: Understanding the Factors and Strategies <i>By M.B. Chaudhary, Bornallee Handique, Da U Ruhi Pde, A.K. Srivastava and Deepjyoti Baruah</i> | 36-39 |
| 12 | Seaweed Supplementation in Dairy Cattle: Implications for Methane Mitigation, Milk Yield and Nutritional Quality <i>By M.B. Chaudhary, Bornallee Handique, Da U Ruhi Pde, A.K. Balange and Deepjyoti Baruah</i> | 40-42 |

Dear Readers,

It gives me immense pleasure to present the 6th issue of Volume-1 of Scientia Review. As we move steadily toward establishing this magazine as a trusted space for scholarly exchange, each issue reaffirms our belief that knowledge grows when it is shared, questioned and reimagined.

At a time when disciplines are rapidly expanding and new discoveries reshape our understanding of the world, the collective contribution of researchers, educators, practitioners and students becomes more vital than ever. This issue brings together articles that not only explore emerging ideas but also encourage reflection on how collaborative learning and open dialogue can strengthen the foundations of science.

The diverse contributions included here highlight how shared knowledge can empower communities, deepen inquiry and inspire innovation across sectors. Whether it is a new perspective on agricultural development, insights into technology-driven solutions or reflections from the field, each piece adds to a larger narrative that progress is most meaningful when built on shared understanding.

I express my sincere gratitude to all authors, reviewers and members of the editorial team whose dedication has shaped this issue. Your commitment ensures that Scientia Review continues to evolve into a vibrant platform that reflects both academic rigor and creative thought. I also extend heartfelt thanks to our readers for their continued support; your engagement inspires us to bring forward content that matters.

As we release this 6th issue, we reaffirm our commitment to strengthening the culture of scientific exchange. Let this edition serve as a reminder that science thrives not in isolation but in the collective pursuit of ideas.

Warm Regards,

(P.K. Bordoloi)
